

Polyethylene Foam Inserts & Cases

Adfoam specialises in the production of high-quality, custom-made inserts and cases for the promotion, presentation and protection of *your* product.

Whatever you need to present, display or carry ~ from medical equipment, tools and instruments to electronics, computers or promotional products ~ we can provide the right advice, then design and manufacture custom-cut inserts ~ and offer a range of specialist cases to suit!

What is the Best Material?

Adfoam case and box inserts are made from **POLYETHYLENE** and/or **POLYURETHANE** flexible foams ~ special **ANTI-STATIC** foams can be specified for use with PCBs and sensitive electronic equipment. Both closed-cell and non-crosslinked foams and density grades provide an interesting choice of texture to the insert. These flexible foams can also be supplied as cut-to-size packing and locating pieces.

Complex Shapes & Cutouts

Our custom-designed inserts ensure a perfect fit for your product and can be cut to complex shapes to provide a unique professional display. Backfills to different depths and multiple layers increase the options available.

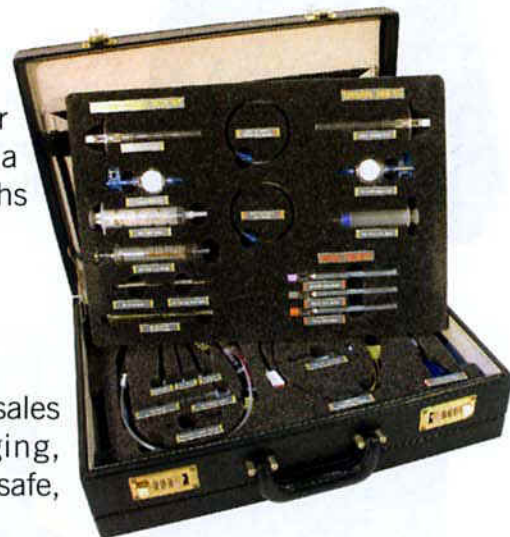

Sales Presentation & Display

Adfoam case and box inserts are ideal for sales presentations and promotional packaging, protection of small and fragile items and the safe, secure transportation of your product.

Established in 1969, we have had many years experience in custom-designing perfectly fitted solutions for the medical and pharmaceutical industry, tradesmen, photographers, tool and instrument makers, technicians and sales representatives.

For an obligation-free consultation to advise on how we may be able to help your business, please call **Adfoam** on **Ph.(02) 9742 6900**

Packing & Locating ~ Shipping Cases & Cartons

Adfoam can custom-design and supply a total packaging concept for a variety of products ~ from a simple insert or locating piece to cartons and shipping cases. Minimise transport damage and breakages with the correct form of packaging for *your* product.

Polyethylene & Polyurethane Sheets

We can cut polyethylene and polyurethane sheets to size required and supply convoluted polyurethane for protective packaging and soundproofing (sound attenuation).

Range in Stock

We stock the popular, heavy-duty Pelican and Storm cases, moulded plastic attache cases that can be screen-printed with your company name and/or logo, plus lightweight aluminium sales/briefcases.

We can supply both case and insert, or manufacture an insert for your own cases and presentation boxes.

See our website www.adfoam.com.au for more examples of Adfoam packaging solutions.
